WHY ATTEND?

As new Marianist communities form and established communities mature, accompaniment by an objective but invested individual will deepen the life of a community, strengthen interdependence with the wider Marianist Family and encourage outreach and service.

THE GOALS OF THE WORKSHOP ARE TO:

- Define spiritual accompaniment. How does this role fit with other dynamics of a community?
- Delve into how individuals interested in spiritual accompaniment learn to recognize what is needed, what to do, and when to do it.
- Explore the benefits for a community with spiritual accompaniment.
- Articulate the value for the wider Marianist Family of spiritual accompaniment in each community.

The day will include presentations, case studies, and interaction with people experienced and knowledgeable about the gifts and impact of Marianist community.

Cost for the workshop is \$30.00, including lunch
