

TEACHING AS MINISTRY

Teaching as Ministry (TAM) has been offered in various forms for the past 30 years as a formation experience for Marianist educators. TAM provides participants the opportunity to network with other Marianist educators, share the good things about Marianist Education at their schools, gain insight and perspective on the Characteristics of Marianist Education, and commit to making an impact on the Marianist character of their schools when they return home. Although TAM was originally designed for classroom teachers, we recognize that education is not limited to the formal curriculum. TAM currently welcomes all faculty, administrators, and staff members of Marianist-sponsored schools who have the desire to learn more about Marianist Education and to contribute to its effectiveness in their schools.
