

Bro. Thomas Trager

60 years of profession

My first contact with the Marianists was when I took the entrance exam for Most Holy Trinity High School in Brooklyn, New York. I was so impressed by the way the Marianist brothers related with us eighth graders that I resolved that, if accepted to Trinity, I would choose to attend there. I did, and my four years with the Marianists prompted me to request papers for entrance to the Society of Mary.

Now, 60 years later, I look back with gratitude on the many wonderful ministries and communities that have graced my life.
