

## **BROTHER FREDERICK RECH**

*Celebrating 60 years of profession*

I am very happy being a Marianist, living and working in Ireland, coming up to my 60th year of vows. God knows my parents and family — to whom I am very grateful — were very instrumental in promoting my vocation.

Working in Ireland and living in the community have been blessings. In the novitiate, I said I joined the Society of Mary to help people and be of service to the community — these are still my idea. My mother introduced me to the Blessed Mother and her son, and we are all good friends.
